

Our Specialty - Mental Illness

Medicalodges Paola is one of only four facilities in North-Central Kansas that provides care for individuals needing assistance with both mental and physical health challenges. Consumers with mental illness, learning to live with the physical limitations associated with their disability are given assistance to regain the skills to successfully perform daily activities.

The staff at Medicalodges Paola is trained to care for the entire individual. By meeting the physical, mental, and psycho-social needs of our consumers, we are equipped to address the specialized recovery needs of individuals with mental and behavioral health challenges. We strive to be a link on their journey back to living safely in their own homes.

Our facility works with the individual, family, and other health professionals to develop a planned course of treatment and care. Our staff of nurses, psychiatrist, psychologist, social services and activities can help with all aspects of the individual's life.

Our Commitment

Medicalodges Paola believes in the highest attainable quality of care for our consumers and friendly, attentive service. Our highly skilled, dedicated staff is here to serve with one goal in mind, to make each consumer's stay with us a positive, life affirming experience. Medicalodges believes that the quality of life our residents enjoy is as important to them as the quality of care. Consequently, our valued employees know more than their jobs; they understand the importance of a kind word, a gentle touch, and the healing power of a smile. Compassion enhances our care everyday. At Medicalodges Paola, you will find professional, compassionate, and affordable care. That is our pledge. That is the Medicalodges commitment to you.

Welcome to Medicalodges Paola

Thank you for taking a moment to learn what Medicalodges Paola has to offer. Medicalodges Paola is a skilled nursing center specializing in mental illness. Our company was founded in 1961 by Mr. S.A. Hann in Coffeyville, Kansas, and our home office is still located there today. As a progressive provider of healthcare, Medicalodges, Inc. has over thirty health care operations in three Midwestern states and employs over 2000 people. Providing health care at various levels of need is the sole business of Medicalodges, Inc.

Employee Ownership

In February 1998, one of the most significant events in the history of Medicalodges, Inc. took place. An agreement was reached by which the employees of Medicalodges bought the company and thus ensured the future of the company would be determined by the thousands of employees who make Medicalodges what it is today. Medicalodges was the first health care company in the United States to be 100% employee-owned and remains one of the largest employee-owned companies of any industry in the country.

Each and every one of the thousands of persons who entrust their health care needs to Medicalodges every year does so with employees who are also owners of the company. Thus, each employee has a deeply personal, vested interest in providing the highest level of quality care. We experience few staff turnovers which results in stability and more personalized care for the residents and clients. As an employee-owned company, any profits that are made are put back into the company, its care centers, resident care, and to retirement funds.

What We Offer

Medicalodges Paola staffs highly skilled professionals to ensure that our consumers reach their highest physical, emotional, and social levels. We offer skilled nursing care for both short-term and long-term stays for persons diagnosed with mental illness.

Skilled Nursing Care

Medicalodges Paola provides skilled mental health and rehabilitation services for both short-term and long-term stays. Our skilled nursing care is specialized for individuals diagnosed with severe and persistent mental illness. We provide a continuity of care for those individuals who have developed a need for extended care and supportive services. Our multi-disciplined approach of skilled nursing and rehabilitation enables many of our consumers to return to their prior living arrangements.

Admission Requirements

Medicalodges Paola is a nursing facility for mental health. Due to this status, Medicalodges Paola requires that the individual pass a Pre-Admission Screening/Resident Review, also known as a PASRR or Level II screening.

Rehabilitation Services

Therapy programs are developed for each qualified consumer and implemented by licensed therapists and certified assistants. Based on the specific needs of each consumer, a combination of occupational, physical, and speech/language therapy is utilized to allow each individual to obtain their desired goal and when possible, return to their prior level of function.

Restorative Therapy

Restorative therapy services are also available at Medicalodges Paola. This program assists residents to improve or maintain their range of motion, ambulation, mobility, and muscle tone. Restorative techniques benefit residents who have recently had therapy treatments as well as those who have stayed with us for some time and wish to enhance their physical well-being.

Sheltered Workshop

Medicalodges Paola offers consumers a unique opportunity to learn workplace skills in our sheltered workshop. In the workshop, consumers who choose to participate learn the importance of being punctual, the value of money, and accomplishing tasks.
